PB&J Sandwich Making 101

Be sure to use high-quality, protein-rich ingredients with the latest expiration date. Also, please wash your hands thoroughly with soap and water, tie hair back, and wear gloves.

Step 1

Wearing gloves and hair ties is REQUIRED. Lay out bread—no ends/heels.

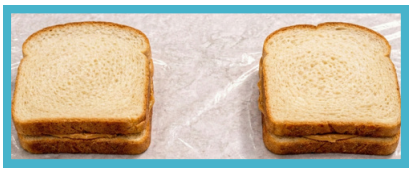
Step 2

Neatly spread **1½ tablespoons of peanut butter** on **each slice** of bread. Peanut butter is the only allowed nut butter.

Step 3

Spread **2 teaspoons of jelly** in the **center** of **every other slice** of bread. Keep jelly away from edges of bread for neat sandwiches. Only use jelly, no jam, preserves, or fruit spread.

Step 4



Combine **one slice with peanut butter & jelly** with **one slice with just peanut butter** to create a complete sandwich. Press slices together gently. DO NOT cut sandwiches.

Step 5

Place each sandwich in an ***individual zip-lock*** sandwich bag. Press out excess air. Seal tightly.

Step 6

Neatly place the zip-locked sandwiches **into the loaf bag**, press out excess air, and ***secure well with a twist tie***—no knots or bands.
